

Andyblue 1.0 How-To

- **HEADER:** If you want to include a Post Ticker, please change what's inside headline.php

```
<div id="headline">
  <p>
    <?php if (is_category()) { ?>Archive for '<?php echo single_cat_title(); ?>'
    <?php } elseif (is_day()) { ?>Archive for <?php the_time('F jS, Y'); ?>
    <?php } elseif (is_month()) { ?>Archive for <?php the_time('F, Y'); ?>
    <?php } elseif (is_year()) { ?>Archive for the year <?php the_time('Y'); ?>
    <?php } elseif (is_tag()) { ?>Tag: <?php single_tag_title(''); ?>
    <?php } elseif (is_search()) { ?>Search Results
    <?php } elseif (isset($_GET['paged']) && !empty($_GET['paged'])) { ?>Archives
    <?php } ?>
  </p>
</div>
```

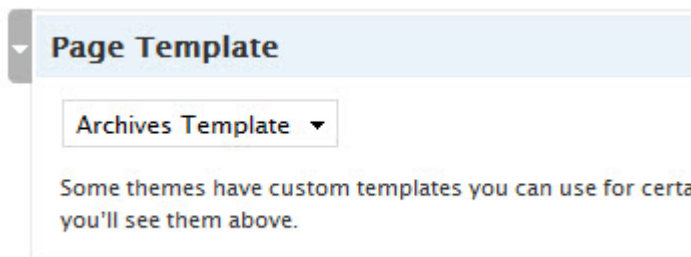

with

```
<div id="headline">
  <p>
    <?php insert_ticker(); ?>
  </p>
</div>
```

NOTE: You need Wordpress Post-Ticker plugin

LINK: <http://wordpress.org/extend/plugins/post-ticker/screenshots/>

- **ARCHIVES:** If you want the archives page create a new page with permalink "http://yoururl.com/archives/" and select from menu "Archives Template".

- **CONTACT FORM:** This theme support Contact Form 7, download and activate plugin, copy [contact-form . . .] code and paste it into the content of the page Contact, permalink must be "http://yoururl.com/contact/"
Link: <http://ideasilo.wordpress.com/2007/04/30/contact-form-7/>
- **ABOUT:** Create a new page with permalink <http://yoururl.com/about/> and put what you want inside
- **CAPTCHA:** Remember to use a good AntiSpam plugin, try Recaptcha
